This chart is the DEP's good faith assessment, as of the date of the attached letter for the contaminant monitoring requirements for the above referenced public water system for the calendar year 2010(only). If you disagree, then please contact the DEP as soon as possible. Please be aware that monitoring schedules are subject to change at any time based upon analyses results or other factors. This chart shall not relieve any person from any requirement of Florida law.

Submit your Maximum Residual Disinfectant Level (MRDL) report to the Department by no later than the tenth day following the end of each calendar quarter of 2010.

Contact Michele Stewart of the South District FDEP Office (239) 332-6975 ext 189, to identify which Water Quality Parameters you must monitor for, the locations the samples must be collected from, and at what frequency the samples must be collected.

This chart is the DEP's good faith assessment, as of the date of the attached letter for the contaminant monitoring requirements for the above referenced public water system for the calendar year 2010(only). If you disagree, then please contact the DEP as soon as possible. Please be aware that monitoring schedules are subject to change at any time based upon analyses results or other factors. This chart shall not relieve any person from any requirement of Florida law.

***** Continue quarterly monitoring for TTHMs and HAA5s during the first (January/February/March) and second (April/May/June) calendar quarters of 2010. Stay on quarterly monitoring for both TTHMs and HAA5s until the running annual average TTHM concentration is less than 0.040 mg/L AND the running annual average HAA5 concentration is less than 0.030 mg/L. Submit your TTHM and HAA5 summary report to the Department by no later than the tenth day following the end of each calendar quarter.

****** Please note, if you do qualify to go to reduced (Annual) monitoring for TTHMs and HAA5s after the monitoring during the first and second calendar quarters of 2010 has been performed, you will still be required to collect an Annual set of samples for TTHMs and HAA5s during the third calendar quarter (July/August/September) of 2010.

******* Submit your Maximum Residual Disinfectant Level (MRDL) report to the Department by no later than the tenth day following the end of each calendar quarter of 2010.

******** Contact Michele Stewart of the South District FDEP Office (239) 332-6975 ext 189, to identify which Water Quality Parameters you must monitor for, the locations the samples must be collected from, and at what frequency the samples must be collected.

If you disagree, then please contact the DEP as soon as possible. Please be aware that monitoring schedules are subject to change at any time based upon analyses results or other factors. This chart shall not relieve any person from any requirement of Florida law.

***** Collect one set of TTHM and HAA5 samples during the third calendar quarter (July/August/September) of 2010. Submit your TTHM and HAA5 summary report to the Department by no later than the tenth day following the end of the third calendar quarter of 2010.

****** Collect one full set of VOCs (all 21 contaminants) during the first calendar quarter (January/February/March) of 2010. This will then also count as your Annual sample for the VOC of Total Xylenes which must be collected during the first calendar quarter of 2010.

******* Submit your Maximum Residual Disinfectant Level (MRDL) report to the Department by no later than the tenth day following the end of each calendar quarter of 2010.

******** Collect your Annual samples for Lead and Copper (in accordance with your approved sampling plan) sometime between June 1 and September 30, 2010.

********* Contact Michele Stewart of the South District FDEP Office (239) 332-6975 ext 189, to identify which Water Quality Parameters you must monitor for, the locations the samples must be collected from, and at what frequency the samples must be collected.

This chart is the DEP's good faith assessment, as of the date of the attached letter for the contaminant monitoring requirements for the above referenced public water system for the calendar year 2010(only). If you disagree, then please contact the DEP as soon as possible. Please be aware that monitoring schedules are subject to change at any time based upon analyses results or other factors. This chart shall not relieve any person from any requirement of Florida law.

***** Continue quarterly monitoring for TTHMs and HAA5s during the first (January/February/March) and second (April/May/June) calendar quarters of 2010. Stay on quarterly monitoring for both TTHMs and HAA5s until the running annual average TTHM concentration is less than 0.060 mg/L AND the running annual average HAA5 concentration is less than 0.045 mg/L, OR until the four most recent sets of consecutive quarterly samples are each less than the MCLs for both TTHMs and HAA5s.

****** Please note, if you do qualify to return to Annual monitoring for TTHMs and HAA5s after the monitoring during the first and second calendar quarters of 2010 has been performed, you will still be required to collect an Annual set of samples for TTHMs and HAA5s during the third calendar quarter (July/August/September) of 2010.

******* Collect one sample for the Secondary contaminant of Color during each month of 2010, in accordance with your Consent Order.

******** Collect one set of samples for Lead and Copper (in accordance with your approved sampling plan) sometime between January 1 and June 30, 2010. Additional monitoring for Lead and Copper may be required in 2010, and will be contingent upon the laboratory analyses results of the set of samples collected between January 1 and June 30, 2010.

********* Contact Michele Stewart of the South District FDEP Office (239) 332-6975 ext 189, to identify which Water Quality Parameters you must monitor for, the locations the samples must be collected from, and at what frequency the samples must be collected.

LEAD AND COPPER 40 CFR 141 Subpart I				****X	
WATER QUALITY PARAMETERS 40 CFR 141 Subpart I					****X

This chart is the DEP's good faith assessment, as of the date of the attached letter for the contaminant monitoring requirements for the above referenced public water system for the calendar year 2010(only). If you disagree, then please contact the DEP as soon as possible. Please be aware that monitoring schedules are subject to change at any time based upon analyses results or other factors. This chart shall not relieve any person from any requirement of Florida law.

***** Collect one set of TTHM and HAA5 samples/plant/quarter during each calendar quarter of 2010. Submit your TTHM and HAA5 summary report to the Department by no later than the tenth day following the end of each calendar quarter.

****** Collect your Annual samples for the VOCs of 1,1 Dichloroethylene and 1,2 Dichloroethane during the second calendar quarter (April/May/June) of 2010.

******* Submit your Maximum Residual Disinfectant Level (MRDL) report to the Department by no later than the tenth day following the end of each calendar quarter of 2010.

******** Collect your Triennial samples for Lead and Copper (in accordance with your approved sampling plan) sometime between June 1 and September 30, 2010.

********* Contact Michele Stewart of the South District FDEP Office (239) 332-6975 ext 189, to identify which Water Quality Parameters you must monitor for, the locations the samples must be collected from, and at what frequency the samples must be collected.
