RADIONUCLIDES Gross Alpha, Uranium, Radium-226, Radium-228 (62-550.519)	Currently, monitoring for radiological contaminants is not required to be performed for Nontransient Noncommunity water systems for the 2010 calendar year.
--	---

This chart is the DEP's good faith assessment, as of the date of the attached letter for the contaminant monitoring requirements for the above referenced public water system for the calendar year 2010(only). If you disagree, then please contact the DEP as soon as possible. Please be aware that monitoring schedules are subject to change at any time based upon analyses results or other factors. This chart shall not relieve any person from any requirement of Florida law.

- \* Continue quarterly monitoring for the Primary Inorganic Contaminant of Sodium during each calendar quarter of 2010.
- \*\* Collect your Triennial set of samples for TTHMs and HAA5s during the third calendar quarter (July/August/September) of 2010.
- \*\*\* Collect one full set of samples for SOCs (all 29 contaminants) during the fourth calendar quarter (October/November/December) of 2010. This will then also count as your Annual sample for the SOC of Dalapon which must be collected during the fourth calendar quarter of 2010.
- \*\*\*\* Contact Michele Stewart of the South District FDEP Office (239) 332-6975 ext 189, to identify which Water Quality Parameters you must monitor for, the locations the samples must be collected from, and at what frequency the samples must be collected.

<b>RADIONUCLIDES</b> Gross Alpha, Uranium, Radium-226, Radium-228 (62-550.519)	Currently, monitoring for radiological contaminants is not required to be performed for Nontransient Noncommunity water systems for the 2010 calendar year.
---	---

This chart is the DEP's good faith assessment, as of the date of the attached letter for the contaminant monitoring requirements for the above referenced public water system for the calendar year 2010(only). If you disagree, then please contact the DEP as soon as possible. Please be aware that monitoring schedules are subject to change at any time based upon analyses results or other factors. This chart shall not relieve any person from any requirement of Florida law.

**\*** Continue quarterly monitoring for TTHMs and HAA5s during the first (January/February/March) and second (April/May/June) calendar quarters of 2010. Stay on quarterly monitoring for both TTHMs and HAA5s until the running annual average TTHM concentration is less than 0.060 mg/L AND the running annual average HAA5 concentration is less than 0.045 mg/L, OR until the four most recent sets of consecutive quarterly samples are each less than the MCLs for both TTHMs and HAA5s.

**\*\*** Please note, if you do qualify to return to Annual monitoring, or qualify for reduced (Triennial) monitoring for TTHMs and HAA5s after the monitoring during the first and second calendar quarters of 2010 has been performed, you will still be required to collect an Annual/Triennial set of samples for TTHMs and HAA5s during the third calendar quarter (July/August/September) of 2010.

**\*\*\*** Collect one full set of samples for SOCs (all 29 contaminants) during the fourth calendar quarter (October/November/December) of 2010. This will then also count as your Annual samples for the SOCs of Di(2-ethylhexyl)phthalate (DEHP), and Dalapon which must be collected during the fourth calendar quarter of 2010.

**\*\*** Collect one full set of samples for SOCs (all 29 contaminants) during the third calendar quarter (July/August/September) of 2010. This will then also count as your Annual sample for the SOC of Di(2-ethylhexyl)phthalate (DEHP) which must be collected during the third calendar quarter of 2010.

**\*\*\*** Contact Michele Stewart of the South District FDEP Office (239) 332-6975 ext 189, to identify which Water Quality Parameters you must monitor for, the locations the samples must be collected from, and at what frequency the samples must be collected.

# PUBLIC WATER SYSTEM CONTAMINANT MONITORING GUIDANCE FOR CALENDAR YEAR 2010

**SYSTEM NAME: BRIGHTON RANCH OFFICE**

**PWS ID #: 5284153**

CONTAMINANTS FAC Rule No./Rule Reference	Not Required In 2010	Monthly in 2010	Quarterly In 2010	SemiAnnual (2 in 2010)	One Time in 2010
NITRATE AND NITRITE (62-550.512)					<b>X</b>
INORGANIC CONTAMINANTS (62-550.513)	<b>X</b>				
TOTAL TRIHALOMETHANES (62-550.514), 40 CFR-141 Subpart L (Stage 1 Disinfectants and Disinfection Byproducts Rule)			<b>*X</b>		<b>**X</b>
HALOACETIC ACIDS (62-550.514), 40 CFR-141 Subpart L (Stage 1 Disinfectants & DBPs Rule)			<b>*X</b>		<b>**X</b>
VOLATILE ORGANIC CONTAMINANTS (62-550.515)					<b>X</b>
SYNTHETIC ORGANIC CONTAMINANTS (62-550.516)			<b>***X</b> Dalapon only revised 3/11/10		
MICROBIOLOGICAL (62-550.518)		<b>X</b>			
DISINFECTANT RESIDUALS (62-550.514), 40 CFR-141 Subpart L (Stage 1 Disinfectants & DBPs Rule )		<b>X</b>			
LEAD AND COPPER 40 CFR 141 Subpart I					<b>****X</b>

This chart is the DEP's good faith assessment, as of the date of the attached letter for the contaminant monitoring requirements for the above referenced public water system for the calendar year 2010(only). If you disagree, then please contact the DEP as soon as possible. Please be aware that monitoring schedules are subject to change at any time based upon analyses results or other factors. This chart shall not relieve any person from any requirement of Florida law

<b>RADIONUCLIDES</b> Gross Alpha, Uranium, Radium-226, Radium-228 (62-550.519)	Currently, monitoring for radiological contaminants is not required to be performed for Nontransient Noncommunity water systems for the 2010 calendar year.
---	---

**\*** Continue quarterly monitoring for TTHMs and HAA5s during the first (January/February/March) and second (April/May/June) calendar quarters of 2010. Stay on quarterly monitoring for both TTHMs and HAA5s until the running annual average TTHM concentration is less than 0.060 mg/L AND the running annual average HAA5 concentration is less than 0.045 mg/L, OR until the four most recent sets of consecutive quarterly samples are each less than the MCLs for both TTHMs and HAA5s.

**\*\*** Please note, if you do qualify to return to Annual monitoring, or qualify for reduced (Triennial) monitoring for TTHMs and HAA5s after the monitoring during the first and second calendar quarters of 2010 has been performed, you will still be required to collect an Annual/Triennial set of samples for TTHMs and HAA5s during the third calendar quarter (July/August/September) of 2010.

**\*\*\*** Revised 3/11/10: Initiate quarterly monitoring for the SOC of Dalapon during the second (April/May/June) calendar quarter of 2010.

**\*\*\*\*** Collect your Annual samples for Lead and Copper (in accordance with your approved sampling plan) sometime between June 1 and September 30, 2010.
